

STC LIGHTWEIGHT Alternator kit pricing

The BC433 lightweight alternator kit STC with all wires, circuit protection, switches, connectors, circuit breakers, alternator, regulator, indicator light, over voltage circuit, EMF filter, instructions and authorization is \$795 (2008).

This Alternator price DOES NOT include a Continental drive unit which retails new for nearly \$700, and which the user is required to return from his old generator / alternator/ or surplus procurement after installing the unit we provide.

We charge an additional core deposit of \$500 to insure the return of the purchaser's old gears and hub assembly components. This charge, or suitable portions thereof, are refundable upon the inspection and certification of those user components returned for use in a future drive unit.

The delivered electrical generation dynamo / alternator unit we supply to the user is equipped WITH an installed, inspected, properly torqued, and certified Continental Motors generator drive assembly that includes:

	Approximate core charge	Inspection PASS rate
1. a HUB, (meeting specification 653983B)	\$175	60%
2. a BUSHING,	\$30	95%
3. a RETAINER CUP,	\$35	70%
4. two new RUBBER DRIVE BUSHINGS,	complimentary	
5. a Drive GEAR,	\$325	95%
6. a SPECIAL RETAINING NUT,	\$30	95%
7. and a COTTER PIN.	complimentary	

If items are not returned, or are found to otherwise NOT be serviceable upon inspection, the following valuations and replacement costs will be charged against the core deposit as shown above. Approximate inspection PASS rates are also shown above for planning purposes.

Alternator kit	\$895.00
Core charge	\$500.00
Standard shipping charges in the domestic United States is	\$14.00
Total due at delivery	\$1409.00
